Enigma into 30/12/30

Believe, Lee Sam Shue states  
that he is the real owner of the  
woman, & during his temporary  
absence in Wandong he had asked  
C.D. 62 to keep an eye on her.

He returned to Shanghai yesterday  
and upon his return at the theatre  
caused by the woman, especially  
as it has brought down the  
C.D. 62! The matter of the  
longing house after has been  
squeezed up.

⇒ The woman is still absent  
from Shanghai.

⇒ The Evening Home people  
do not see any action to be  
taken.

Though I am of the  
opinion that 1962 was  
perhaps more than a  
"protective" interest in the  
country, the statement of the  
British has somewhat alarmed  
him & I have seriously warned  
him to keep an eye on the  
country if he wishes to  
continue in the British Empire  
& not being interested in the  
future.
